Menge/Lage Quantity per layer	If applicable (3)			Stk. pcs

Please complete this form and return it to us at your earliest convenience. (should be a.s.a.p.) (3)

FAO: Claudia.Hotfiel@eu.spectrumbrands.com

* muss größer als die Breite sein | must be greater than the width (only mandatory for Master carton) (4)

(1) Gross Weight for the SU, IC1 and MC would be great, but most important is to have the Gross Weight of the Master Carton. This can be calculated down to the IC1 and SU.

(2) Only mandatory when there is an Inner Carton for the product.

(3) For some products there is no Pallet qty applicable (like micro chips or products where we only order some cases). If the Warehouse (EWM) still wants a pallet configuration, they can calculate it with the dimensions of the Master Carton. Maintaining ZEAN could be their responsibility also then (to be discussed)

8-Oct-18

(4) When there is a fixed qty in the Shippercarton, also for this an EAN is required
